Paragon Group

("Paragon", "the Company", or "the Group")

Award of UK Government Procurement Framework

Paragon, a leading global business services provider in brand services and outsourced services, announces it has been selected as the sole supplier by the UK Government Commercial Agency (GCA) for a new four-year framework supporting public sector procurement of goods and commoditised services.

Under the RM6369 The Marketplace framework, Paragon will supply a digital marketplace procurement platform enabling UK public sector organisations to buy a broad range of everyday and lower-complexity goods and services from approved suppliers.

The framework is valued up to £1 billion and will run from 01 October 2026 to 30 September 2030. The platform will be available to central government departments and other UK public sector bodies, including local authorities, health, police, fire and rescue, education and devolved administrations.

The award represents a significant opportunity for Paragon to further strengthen its presence within the UK public sector and demonstrate the breadth of its procurement capabilities.

GCA is the UK's central commercial and procurement organisation, connecting public and private sectors to achieve the best outcomes for the UK and its citizens. GCA uses its commercial expertise to create a simpler procurement experience that redirects valuable resources into essential public services – creating value for the nation.

Jeremy Walters, Chief Executive of Paragon Group, commented:

"We are extremely proud to have secured the sole award of the framework contract. This is an important achievement for Paragon and reflects the strength of our proposition, our capabilities and our commitment to delivering value for organisations across the public sector. We look forward to bringing the breadth of Paragon's products, services, technology and expertise to organisations accessing the framework over the next four years."
